

Sheet1

Species	Status
Ancistrocerus gazella	not regarded as being scarce or threatened
Ancistrocerus trifasciatus	not regarded as being scarce or threatened
Andrena bicolor	not regarded as being scarce or threatened
Andrena chrysoseles	not regarded as being scarce or threatened
Andrena cineraria	not regarded as being scarce or threatened
Andrena dorsata	not regarded as being scarce or threatened
Andrena haemorrhoa	not regarded as being scarce or threatened
Andrena helvola	not regarded as being scarce or threatened
Andrena minutula	not regarded as being scarce or threatened
Andrena nigroaenea	not regarded as being scarce or threatened
Andrena nitida	not regarded as being scarce or threatened
Andrena proxima sensu lato	Rare (RDB3)
Andrena scotica	not regarded as being scarce or threatened
Andrena synadelpha	not regarded as being scarce or threatened
Andrena tibialis	Notable A (now known as Nationally Scarce)
Andrena trimmerana	Notable A (now known as Nationally Scarce)
Anthophora furcata	not regarded as being scarce or threatened
Anthophora plumipes	not regarded as being scarce or threatened
Argogorytes fargeii	(now known as Scarce (Na))
Argogorytes mystaceus	not regarded as being scarce or threatened
Bombus hortorum	not regarded as being scarce or threatened
Bombus hypnorum	not regarded as being scarce or threatened
Bombus lapidarius	not regarded as being scarce or threatened
Bombus pascuorum	not regarded as being scarce or threatened
Bombus pratorum	not regarded as being scarce or threatened
Bombus ruderatus	(now known as Nationally Scarce (Nb))
Bombus terrestris	not regarded as being scarce or threatened
Bombus vestalis	not regarded as being scarce or threatened
Cerceris rybyensis	not regarded as being scarce or threatened
Chelostoma florissomne	not regarded as being scarce or threatened
Crossocerus annulipes	not regarded as being scarce or threatened
Crossocerus binotatus	(now known as Scarce (Nb))
Crossocerus cetratus	not regarded as being scarce or threatened
Crossocerus nigrinus	not regarded as being scarce or threatened
Crossocerus podagricus	not regarded as being scarce or threatened
Ectemnius continuus	not regarded as being scarce or threatened
Ectemnius lituratus	not regarded as being scarce or threatened
Ectemnius rubicola	Generally scarce and infrequent
Eremotylus marginatus	not regarded as being scarce or threatened
Gymnomerus laevipes	not regarded as being scarce or threatened
Halictus rubicundus	not regarded as being scarce or threatened
Halictus tumulorum	not regarded as being scarce or threatened
Haltichella rufipes	not regarded as being scarce or threatened
Hedychridium roseum	not regarded as being scarce or threatened
Heriades truncorum	not regarded as being scarce or threatened
Hylaeus dilatatus [Genus inferred]	not regarded as being scarce or threatened
Hylaeus hyalinatus	not regarded as being scarce or threatened
Lasioglossum calceatum	not regarded as being scarce or threatened
Lasioglossum laevigatum	not regarded as being scarce or threatened
Lasioglossum malachurum	not regarded as being scarce or threatened

Sheet1

<i>Lasioglossum minutissimum</i>	not regarded as being scarce or threatened
<i>Lasioglossum morio</i>	not regarded as being scarce or threatened
<i>Lasioglossum pauxillum</i>	Nationally Scarce (Na)
<i>Lasioglossum xanthopus</i>	Nationally Scarce (Na)
<i>Lestiphorus bicinctus</i>	(now known as Scarce (Nb))
<i>Lindenius albilabris</i>	not regarded as being scarce or threatened
<i>Macrophya ribis</i>	not regarded as being scarce or threatened
<i>Macropis europaea</i>	Nationally Notable (Na)
<i>Melitta tricineta</i>	Nationally Notable (Na)
<i>Mimumesa dahlbomi</i>	Locally rare
<i>Nomada conjungens</i>	RDB2 (Vulnerable)
<i>Nomada fabriciana</i>	not regarded as being scarce or threatened
<i>Nomada ferruginata</i>	Endangered (RDB1)
<i>Nomada flava</i>	not regarded as being scarce or threatened
<i>Nomada flavoguttata</i>	not regarded as being scarce or threatened
<i>Nomada fulvicornis</i>	Rare (RDB3)
<i>Nomada goodeniana</i>	not regarded as being scarce or threatened
<i>Nomada lathburiana</i>	RDB3 (Rare)
<i>Nomada marshamella</i>	not regarded as being scarce or threatened
<i>Nomada panzeri sensu lato</i>	not regarded as being scarce or threatened
<i>Nomada ruficornis</i>	not regarded as being scarce or threatened
<i>Nomada sheppardana</i>	not regarded as being scarce or threatened
<i>Nomada striata</i>	Locally rare
<i>Nomada zonata</i>	Locally rare
<i>Nysson trimaculatus</i>	[now known as Nationally Scarce (Nb)]
<i>Osmia bicolor</i>	Nationally Notable (Nb)
<i>Osmia bicornis</i>	not regarded as being scarce or threatened
<i>Osmia caerulescens</i>	not regarded as being scarce or threatened
<i>Oxybelus uniglumis</i>	not regarded as being scarce or threatened
<i>Passaloecus gracilis</i>	not regarded as being scarce or threatened
<i>Pseudomalus auratus</i>	not regarded as being scarce or threatened
<i>Sphecodes crassus</i>	(now known as Nationally Scarce)
<i>Sphecodes ephippius</i>	not regarded as being scarce or threatened
<i>Sphecodes longulus</i>	(now known as National Scarce)
<i>Sphecodes monilicornis</i>	not regarded as being scarce or threatened
<i>Sphecodes rubicundus</i>	not regarded as being scarce or threatened
<i>Spilomena beata</i>	not regarded as being scarce or threatened
<i>Stigmus solskyi</i>	not regarded as being scarce or threatened
<i>Tenthredo baetica</i>	Rare
<i>Tenthredo omissa</i>	not regarded as being scarce or threatened
<i>Tenthredo temula</i>	not regarded as being scarce or threatened
<i>Trichrysis cyanea</i>	not regarded as being scarce or threatened
<i>Trypoxylon attenuatum</i>	not regarded as being scarce or threatened
<i>Trypoxylon clavicerum</i>	not regarded as being scarce or threatened
<i>Trypoxylon medium</i>	not regarded as being scarce or threatened
<i>Vespa crabro</i>	not regarded as being scarce or threatened
<i>Xiphydria prolongata</i>	not regarded as being scarce or threatened
